

MOHAMMAD IMRAN KHAN

Data Analyst • Python | SQL | Power BI | Excel
imrankhan.renowned@gmail.com • +91-8889038390 • [LinkedIn](#) • [GitHub](#)

PROFESSIONAL SUMMARY

Data Analyst with experience in IT and e-commerce domains. Helped grow revenue by 20% through data-driven business decisions and developed Power BI dashboards to present insights clearly to business teams. Skilled in Python, SQL, and Excel — turning complex data into simple, actionable results for stakeholders.

PROFESSIONAL EXPERIENCE

Data Analyst Intern | Singularium Technologies

Dec 2025 – Apr 2026

- Processed and labeled 10,000+ structured and unstructured data records with over 98% accuracy, improving data quality and enhancing ML model validation reliability.
- Reduced dataset inconsistency by ~30% by implementing systematic data quality checks, minimizing errors and reducing model retraining efforts.
- Optimized dataset storage and organization, improving data retrieval speed and usability for the ML engineering team by approximately 40%

Business Analyst Intern | KultureHire |

Jun 2025 – Oct 2025

- Identified 3 untapped e-commerce segments through market research, feeding directly into a product roadmap that grew revenue by 20%.
- Analysed 5,000+ customer records in SQL to optimise product recommendation logic, increasing relevance score by 15%.
- Built Power BI dashboards replacing 4 manual Excel reports — saving ~6 hours/week for the leadership team and enabling real-time KPI tracking.

HIGH-IMPACT PROJECTS

- Movie Recommendation Engine** — Content-based filtering system in Python using cosine similarity; delivered personalised recommendations with <200ms response time across 10K+ titles.
- Real-Time Face Mask Detector** — CNN-based computer vision model achieving 95%+ accuracy on live video streams; deployed end-to-end with OpenCV preprocessing pipeline.
- Weather Trend Analyser** — Analysed 5-year multi-city datasets to surface seasonal anomalies; produced 10+ interactive visualisations adopted as a portfolio case study.

EDUCATION

Master of Computer Application (MCA) — CS & Machine Learning

2023 – 2025

RGPV, Bhopal • Specialisation: ML, Statistical Modelling, Database Systems

Bachelor of Computer Application (BCA) — CS & Database Management

2020 – 2023

Barkatullah Vishwavidyalaya, Bhopal • Coursework: SQL, Data Analytics, DBMS

TECHNICAL SKILLS

Programming & Data Handling: Python (Pandas, NumPy, Scikit-learn), SQL (MySQL)

Data Analysis & Visualization: Power BI, Tableau, Microsoft Excel (Pivot Tables, Power Query, XLOOKUP/VLOOKUP), Matplotlib, Seaborn

Statistics & Analytics: Hypothesis Testing, A/B Testing, Descriptive & Inferential Statistics

Business Intelligence: Data Cleaning, Data Wrangling, KPI Analysis, Dashboard Development, Data-Driven Decision Making

CERTIFICATIONS & TRAINING

- Data Visualisation: Empowering Business with Effective Insights — Forage / Tata
- Data Analytics and Visualization Job Simulation — Forage / Accenture

CORE COMPETENCIES

Business Storytelling with Data • Stakeholder Communication • Cross-functional Collaboration • Critical Thinking • Problem-Solving
